

Sisters of Jesus the Good Shepherd,  
St. John's Community,  
Okpaugwu Abakaliki  
25/1/2023

The Director,  
Samuel Omogo Foundation.

Dear Fr.,

**AN APPEAL FOR ASSISTANCE**

We humbly appeal for your assistance in drilling of a bore-hole in our community. Sisters of Jesus the Good shepherd is an indigenous congregation in the Catholic Diocese of Abakaliki.

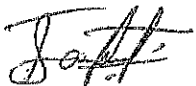

This application is prompted by an increase water scarcity and lack of portable water in our community especially during dry season.

This unfavourable situation has caused us a lot of emotional and physical stress as well as health problems such as recurrent typhoid fever, gastroenteritis, skin infections etc with its attendant economic loss from frequent hospital visits and admissions.

We therefore solicit for your assistance in providing portable water hence promoting health and alleviating our suffering.

Thanks for your usual cooperation

Yours faithfully,

**Sr. Jacinta Afiukwa**

Ngbo West Development Centre  
Ohaukwu L.G.A

Sir,

## APPLICATION FOR DRILLING OF BOREHOLE

Sequel for the above headings, the good people of Ohulo Village Ndulo Emezam Amoffia wish to thank you immensely for your selfless service to humanity at large. You have been a source of help for the less privileged people in the society to that effect we use this opportunity to request for hand borehole from your foundation so as to enable us has an access to good drinking water supply.

Sir, lack of water have caused a lot of health challenges and risk to our people, the only source of water to our people is Nsuroko Pond, worst still both human and animal drink water from the same source. This has no doubt when people suffer from one illness to another, especially guinea worm and cholera. The population of the village is about four hundred (400) and.

Sir, it is our reserved obligation to take good care of the borehole, should you sink it for us, as you place solidarity for this humanitarian foundation. We pray that the good lord will perfect the vision and mission of this noble foundation all to His glory.

Yours Faithfully,

The Director Samuel Omogo's Foundation (S.O.F)  
Rev. Dr. Peter Omogo,  
OhaiKWU Local Govt. Area,  
Ebony State.

Sir,

## AN APPLICATION FOR THE REQUEST OF A BOREHOLE

We wish to apply for the provision of a borehole in our community at Alisakor Village in Okposhi Ngbo.

The aim is to alleviate our problems on the scarcity of water in our village which include:

1. Tracking of 15 kilometers to Inyimagu, Ameffia, Ngbo dam to mention but a few.
2. Lateness to work, and tiredness after tracking.
3. Meeting some wild animals and snakes etc on our ways.
4. Lastly to avoid some water diseases like diarrhea, Guinea worm, River Blindness and other water born disease.

### Caring for the borehole.

The villagers will set up a committee who will be taking care of the borehole so that children and any other people will not destroy it, and to keep the surroundings clean.

So on this not mentioned above and others, we, the entire people of Alisakor Village humbly apply for a borehole.

Yours faithfully.

Sir,

### A REQUEST FOR WATER BOREHOLE

We the people of Okerike Uruevene Amechi Izhia humbly request for water borehole from you sir, following the neglect by the successive government, we have been crying for help but to no avail, so we decided to write to you sir, following what the foundation under the control of Rev. Fr. Peter Omogo is doing, who has stop at nothing in making lives more meaningful for people ranging from providing incentives diverse kind, drilling of boreholes for skills acquisition, in there numbers, paying of hospital bills for the less privileged and so on.

Our people has been drinking from the ponds, well and that of trekking several miles to have access to safe water.

We will be glad if our request is granted. May the Almighty God continue to bless you as you give listening ear to our cry.

Ohaukwu Local Government Area,  
Ebonyi State.  
1<sup>st</sup> February, 2023.

Rev. Fr. Dr. Peter Omogo,  
Samuel Omogo Foundation

Sir,

## REQUEST FOR DRILLING OF BOREHOLE

We the entire members of Nwefuru Mkpokpo Ekwu Village of Ndiagu Eshi Okposhi Nkwolu Ngbo hereby solicit for the drilling of water well (borehole) in our village to enable us have access to a good drinking water.

Before now, our source of water for both domestic and drinking have being stream (Nwefuru mkpokpo ekwu) which dries up between October and November each year. The drinking of this stream, especially during dry seasons had exposed the villagers to chronic diseases such as Cholera, guinea worm, diarrhea etc. and have damaged many lives. Also the search for drinking water leads to spending my time by women and youths and difficulties like snake and mosquitoes bites are encountered.

Sir, we will be so much glad if our request is granted, and promised to take adequate care of the well (Borehole) if drilled.

Thanks for your anticipated consideration.

 Nigeria  
 3rd February, 2023.

The Director  
 Samuel Omogo Foundation (SOF)  
 Rev. Father Peter Omogo

Sir,

### **AN APPLICATION FOR PROVISION OF BOREHOLE WATER**

We the entire Azuegu village in Ndulo Okposhi Eheku Ngbo are hereby appealing for the provision of borehole water from your foundation. Please father, we have suffered a lot for several years drinking of water from pond and stream, off which we found it difficult more especially in the dry season. And at that time of dry season we use to sleep at the pond environment or the stream environment for us to get water.

The distance of getting or reaching the pond or the stream is also another problem facing us

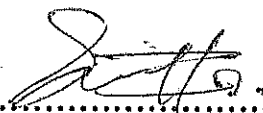

So Father we have conducted and formed nine persons as a committee who will take care of the borehole if it is provided for us and those persons includes:

1. Mr. Agbo Sunday A chairman
2. Mr. Aleke Boniface Secretary
3. Mr. Onwe Odo Provost
4. Mrs. Ali Nwankaego Woman leader
5. Mrs. Eje Ngozi Assist Woman leader
6. Mr. Chukwuma Enyi Youth leader
7. Mrs. Ugadu Nkechinyere Member
8. Mrs. Idenyi Nweke Member
9. Mr. Enyi James Agbo Member

Please Father we will be happy if this our application is Considered

*Thanks and God bless*

Yours faithfully

The Rev. Father,  
Dr. Peter Okwoeze Omogo  
Samuel Omogo Foundation  
Ngbo West Dev. Centre  
Sir,

### **APPLICATION FOR A BOREHOLE**

We the staff, parent and pupils of the aforementioned school highly appreciate your humanitarian services to the people of our society by providing not only numerous qualitative boreholes for them but empowering many less privileged. We thank God so much and you who has made yourself available for him to use. Keep it on and do not relent in Jesus name... Amen.

**We; LIGHT THE WORLD NURSERY AND PRIMARY SCHOOL NDIULO AMOFFIA NGBO** and the neighboring community around the school, therefore request for a borehole within the school compound. This will serve the school (member) which is up to four hundred persons including the teachers.

Sir, the only well water we have in the school usually lasts up to late November which are normally the start of severe scarcity of water in our area. This water problem at times makes our pupils roam around our neighboring village compounds looking for any sort of water, not judging the quality to drink. This often makes them suffer dysentery or cholera.

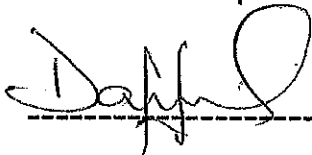

Sir, we promise to take good proper care of it if the borehole is drilled for us. The school has a security. We pray our living God to

Yours faithfully,

**Signed**

Ebonyi State.

Dear Rev. Father,

**APPLICATION FOR WATER BORHOLE**

Sir, we the entire members of Uzor Onukpa village in Ukwagba autonomous community in Ngbo humbly apply for water borehole to our dear Uzor-Onukpa village to enable us participate in drinking good purified water.

Sir we also appreciate your good work for giving so many borehole in Ebonyi State at large not minding the tribes, father we anonymously pray that the almighty God will bless you in abundant and give you more many years in your life to enable you complete your unforgettable work in Nigeria.

Moreover, father we are now suffering a lot in aspect of drinking water and domestic water, for-instance we are still drinking pond water, which we usually use a chemical object called (Alum) in other to wash our domestic materials.

Sir even the distance of the pond water and stream water was very far. Away from our dear village not minding that we should queue on line in other to avoid fighting, quarrelling etc.

Father, we shall be glad if our request will be accepted, more so it will reduce the amount of sickness like cough, bacteria and other water consumers diseases.

Your faithfully

May the Almighty God bless you in abundant in Jesus name Amen.

Sir,

**APPLICATION FOR THE SUPPLY AND INSTALLATION OF WATER BORHOLE.**

We, the entire Ndiagu Alieze community Okposhi Eheku Ngbo humbly wish to apply for the above mention subject.

Reason, we have been suffering for scarcity of water for a reasonable number of years in our community. Our only source of water supply is (1) stream water and (2) pond water respectively.

These two sources of water supply have generated a lot of diseases and problems to us such as Schistoma hematobium, Bithariziasis, Gunea worm, cholera, hookworm, snake and scorpion bites even raping among the young women and youths.

All we tried to have borehole in our village from the past and present government prove abortive.

We, therefore humbly appeal that you should use your good office and rescue us from the ugly situation. It is our sincere prayer that this our application will be duly considered and approved sir.

Thanks for your anticipated co-operation.

### APPLICATION FOR BOREHOLE

We the entire Ndiagu-Obodo Village in Ukwagba Ngbo are humbly wishes to apply for borehole in your grace and beautiful office. That was making and removing people and the villages in Ngbo and Ebonyi State in general from poverty and water born disease in the society because of impure drinking water.

Meanwhile Ndaigu-Obodo village was having a challenge based on water supply or sources of water in the village. Some children and women are dying every day because of disease getting from bad water. Therefore, we want to be among of the beneficiary.

At this gesture, we know that our beneficiary will reduce the rate of death and contagious diseases that is harming our village. A committee has set up as stated below:

Dear Rev. Fr. Peter Okwoeze Omogo,

### APPLICATION FOR BOREHOLE

We the entire people of Ndiagu Ogba Village are overwhelm to apply for you honourable and divine assistance for drilling of borehole.

Ndiagu Ogba was found in ukwagba Ngbo in Ohaukwu Local Government Area of Ebonyi State.

We have been in water scarcity over 30 years and due to lack of water and bad water, we are suffering for different types of virus infection and water born-disease like ~~Gurnee~~ <sup>Gurnee</sup> warm and other challenges.

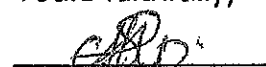

We have been hear and seen what you have been doing by removing villagers from water scarcity in Ngbo and Ebonyi State at large.

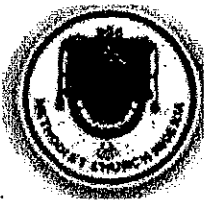

Meanwhile, we want to be among the beneficiary, at this gesture we have set up a committee which is mentioned below:

Chairman	Chukwuma Ose
Vice Chairman	Alexander Idenyi
Secretary	Monday Ali
Financial Secretary	Benjamin Oka
Treasurer	Monday Idenyi
Women leader	Mary Onwe
Youth Leader	Ignesius Abali
Elder	Elechi Dennis

Thanks.

Sir,

## A PASSIONATE APPEAL FOR INSTALLATION OF A BOREHOLE

We the leaders of the above stipulated church, seize this opportunity to apply for installation of a borehole in our church compound.

Sequel to your unprecedented/humanitarian record of love and magnanimity which speaks volume of you within and outside Ebonyi State, we wish to apply to be among those to benefit from your foundation.

The entirety of Abarigwe village is always suffering from lack of water especially during dry season when the close by streams dry. People go as far as Ebeanyi, Umuoboke and even Abogodo to fetch drinkable water. Our church is at the centre of the village, and also on the road side. This automatically will ease people of much if you consider our request.

The church has a Primary school over 230 populations of pupils from "Nursery 1 to Primary 6". Most times during heat period they move around looking from where to drink water after break.

Therefore, we appeal and plead that you help us to salvage this situation. God has been using you to bless our generation. We pray He bless you more in folds.

Thank your sir for your favourable response in anticipation.

The undersigned are the Nine (9) managers of the proposed borehole/church leaders.

Sir,

**APPLICATION FOR THE PROVISSION OF BORE HOLE,**

We the entire people living in Ngedenge village Amoffia Ngbo are here by requesting for the drilling of pipe bore hole for use by the inhabitants of our village.

**REASONS FOR THE REQUEST OF BORE HOLE**

However, the reasons for the request of the bore hole was as a result of scarcity of good drinking water by the entire resident of the village especially in dry season,

(ii) Another reason is that villagers always suffer different kinds of diseases such as guinea- worm, Dysentery, and diarrhea and this was as result of drinking bad water.

(iii) Villagers trek about forty six kilometers and above before they could reach where to fetch water for drinking.

(iv) Accident has claimed many lives on the way while going to where to fetch water for drinking.

Furthermore, we appreciate your good work and kind gesture which have manifested in different villages and as well communities in Ebonyi State.

Lastly, if our request is favourably considered we shall be very happy and elated.

Date: 3rd February, 2023

Samuel Omogo's Foundation,  
Care of,  
Rev. Father Dr. Peter Okworeze Omogo.

Sir,

## APPLICATION FOR BOREHOLE DRILLING

With utmost sincerity, we the entire members of Waiting For Rapture Church of the above mentioned address wish to apply for the borehole drilling within the church.

## HISTORY OF WAITING FOR RAPTURE CHURCH

Waiting For Rapture Church is a Pentecostal church that first started at Ama-Inyima Ndebor Nkaleke Unuphu Izzi in the year 15<sup>th</sup> September, 2018 with an estimated population of about 500 people.

Since the existence of Waiting For Rapture Church one of the major problems the church has been facing is scarcity of water to build the church and for domestic use. Although there is pond about 28KM away from the church arena but the problem is the distance and other challenges surrounding the fetching of water.

This problem of scarcity of water has caused not only suffering to the church alone but also people around the area.

Increase in the spread of airborne diseases and bacterial infection such as guinea worm, cholera, diarrhea, tuberculosis, etc has been most of the challenges the church member and the people within has been facing.

Scarcity of water in Ama-Inyima Ndiebor Nkaleke has also contributed to school dropout among school children as they find it very difficult to wake up on time to a such far place in search of water before going to church or school.

Finally special and elder persons cannot walk in search of water and may have been seriously injured in the process of struggling to fetch pond for drinking and other domestic use.

We promise to provide all expected hygiene, guide and maintain the proposed borehole properly if given to us. Attached are the photographic views for your kind consideration.

May God continue to guide and bless Samuel Omogo's Foundation.

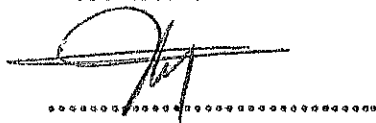

Thanks for your kind consideration in anticipation.

## **APPLICATION FOR THE INSTALLATION OF ULTRA-MODERN BOREHOLE.**

We the entire residents of Ndiagu Unah village in Amoffia Autonomous community are here by requesting for the installation of ultra-modern bore hole for use by the residential s of our village.

### **REASONS FOR THE REQUEST OF BORE HOLE,**

- (i). The request of the borehole is very imperative in the sense that villagers trekked about fifty four kilometers away before they could reach where they would fetch water for drinking.
- (ii). A time's villagers who search for where to fetch good water for drinking succeeded in getting bad water despite all the difficulties and suffering encountered.
- (iii). Another reason is that most of the residents always suffer different types of diseases such as cholera, guinea worm dysentery and diarrhea and this was attributed to lack of drinking good water.
- (iv). Most of the villagers that migrate from one place to another in a quest to search for good water for drinking always involved in auto accident which have resulted to death of many villagers.
- (v). more so, the unavailability and scarcity of water experienced by the villagers in dry season is a worrisome to the entire residents of the aforementioned village.

Notwithstanding, we appreciate and acknowledge your generosity exhibited in various communities of Ebonyi State. As you continue with the work of evangelism we pray that God will continue to guide and protect you in the discharge of your duties.

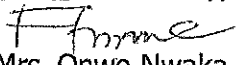

Hence, the entire village is through this medium appealing and pleading with you to use your good office to approve our request.

Finally, if our application is approved we shall be very exhilarated and ecstasy.

Signed

CEO,  
Samuel Omogo Foundation,  
C/O Rev. Fr. Dr. Peter Okwoeze Omogo

Sir,

### **APPLICATION FOR A BOREHOLE**

We humbly apply for the provision of a borehole in our community because of the following reasons;

1. My people live very far from the source of our water supply (Pond)/stream
2. During dry season, we do not get water from the months of December to April, due to scarcity of water supply.
3. We suffer lots <sup>of water</sup> diseases due to lack of water to drink.

Therefore, we the entire people of Ndiulo Okposhi Eheku are in need of our water (borehole) for the safety/ life of our people.

God Bless you for your work.

Thanks.

Yours Faithfully,

Ebonyi State.  
03-01-2023.

The Director,  
Samuel Omogo Foundation,  
S.O.F,  
Umuogudu Oshia Ngbo.

Sir,

**APPLICATION FOR ALLOCATION OF BOREHOLE.**

We the above named community is thankful to almighty God and the founder of S.O.F the Rev<sup>Fr</sup> Dr. Peter Omogo for his generous development works in Ngbo land in particular and the entire Ebonyi State in general. May the good Lord bless you abundantly, Amen.

The community humbly apply to be one of the beneficiaries of your numerous borehole projects in Ebonyi State.

Lack of good water, both for drinking and domestic uses has been a source of worry to the community for the past many years. The only source of water is the Ogwuobo spring and Iyiodo stream and some shallow wells, which dries up on the startment of dry season. Sometimes our women and children both young and aged spent up to 2 to 3 stressful hours waiting for their turns to fetch water, sometimes dues to impatience, quarreling, fighting and litigations may ensure, which leads to enmity. For the fact that these sources of water is impure, contamination of water borne diseases is rampant such as guinea worm, cough and dysentery and other chronic diseases associated with impure water.

If our application is considered and approved, it would go a long way in alleviating the age long fettering of our people and consequently boast our economic and financial lifestyle.

May almighty God bless S.O.F.

2<sup>nd</sup> February, 2023

The Reverend Father,  
Doctor Peter Omogo,  
Samuel Omogo Foundation (SOF)  
Ngbo West Development Centre,  
Ohaukwu Local Government Area.

Sir,

**REQUEST FOR PROVISION OF A BOREHOLE**

Father, we appreciate you and your gracious deeds within Ohaukwu Local Government Area and beyond by providing boreholes for them. This without any doubt has given them the chance for healthier living and as well added fame to you as a chosen man of God who thinks immensely for the welfare of the poor masses around you.

Our Reverend father, what is good for the goose is also good for the gander. We therefore implore your mercy for the provisions of one borehole for us in Amaudo village Umuoru Amaechi Ezzamgbo.

What we are suffering concerning scarcity of water in our area is beyond our control. The only small stream water Isimkpuinawe we have, usually lasts on Novembers. The Emereonu pond in our neighbouring village, Ndiagu Emereonu village umuoru is not close to us and does not even last to serve the population there.

The school of health Ngbo where some of us can go and beg for water involves crossing of main road with sharp bending which had severally caused severe and brutal accidents.

We have every faith that through our Almighty God and your gracious love and service to the less privileged people, our request has yielded success. Thank you, may our living God continue to guard and guide us in Jesus name. The under-listed people's names serve as managers for the anticipated borehole.

THROUGH REV. FR. DR. PETER OMOGO**

**APPEAL FOR THE INSTALLATION OF PIPE BOREHOLE WATER  
AT ASSEMBLIES OF GOD CHURCH IN NDIAGU ATUKPA VILLAGE  
IN OTOKORO IN UMUOGUDU AKPU NGBO**

We would like to use this medium to thank you for all the good things that God is using you to do in the life of people in our society. May God bless you and keep you in Jesus name Amen.

We would also like to use this medium to appeal for your help on behalf of the above mentioned church on the subject matter.

The water we drink and use for domestic purposes is very bad, Guinea worm, cholera, typhoid fever etc are on the move in the village where the church is situated and they are seriously affecting every body. People excrete in the streams wash in them and also drink the same water alongside nomadic animals. The water has been so polluted and very soon people will be dying.

The church members and the neighbouring citizens within the areas travel far distance spending much money all in a bid to fetch drinkable water which sometimes proves abortive.

So we really need your helping hands through your Foundation. Samuel Omogo Foundation(SOF) donation to install in our church at Ndiagu Atukpa village in Otokoro in Umuogudu Akpu Ngbo, a pipe borehole water to enable us overcome some water borne diseases.

We hereby solicit your Foundation to consider our appeal as to giving our appeal a favourable consideration.

We attach the photograph of the deplorable state of our pounds and streams that we drink.

Thanks.

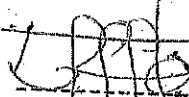

Yours faithfully

Dear Rev<sup>FR</sup>, Dr. peter Okwo<sup>eze</sup> Omogo,

**Request for Borehole**

We the entire members of Obioma village in Ukwagba Ngbo in Ohaukwu Local government area. In Ebonyi state humbly request for borehole in your divine and sacred office.

Having witnessed of our act magnanimity which, cuts across all levels of people in Ebonyi state in the sense that you have instituted poverty alleviation program in Ngbo and Ebonyi in general.

We therefore want to be among the beneficiary.

We are facing challenges of water scarcity and water born diseases as a result of intake of bad water.

The only source of water supply we have in Obioma village are spring water and pond which only provide water during rainy season and dry off in dry season

This condition has caused so many problems in our village because some are suffering from water born disease especially children and woman

It will be a thing of joy to us if an approved is given to our request curtails our plight.

To ensure proper care and mange of the borehole if God answers our prayer, we have set up a committee as stated below

Sir,

**APPLICATION FOR SINKING OF A BOREHOLE IN OUR HOSPITAL**

We the Hospital community of comprehensive Hospital Amokwo Okposhi Eshi Ngbo humbly wish to apply for sinking of a bore-hole in our hospital.

The importance of this water project cannot be over emphasized. This is because water is life. Water is vital to human life and other living creatures; we can survive without good road, light and other social amenities but not without water.

It is evident that nobody can run a hospital without water. For the promotion of good health which is carried out in the hospital, water must be involved. People in the hospital community need water to drink, take their bath, wash their clothes and carry out other vital activities.

We promise to guard this bore-hole jealously if it sunk for us. We intend to form a bore-hole maintenance committee so that it will be taken care of.

We shall be grateful if our application is given a favourable consideration.

Thanks.

## REQUEST FOR BOREHOLE WATER FACILITY

I, Precious Nwite Chinaza, On behalf of Ndieagu Echara Village in Echara Autonomous Community Ezza South L.G.A humbly request for provision of a borehole water facility in our rural area.

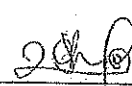

The unfold water scarcity and incessant Cholera out-break in the area promoted me to seek for your assistance to rescue my people from water born diseases and other possible risk that could be resulted in search of water in unsafe forest. The only source of water is covered by green plant or fungi that cause water born diseases which is located in a forest.

I have come with my people to solemnly request for your charitable organization to come and rescue us from water born diseases and other violence that we usually encounter at water source.

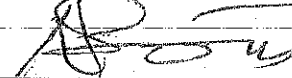

Thank you very much in anticipation of your positive response.

Ebonyi State.

Sir,

### **AN APPLICATION FOR THE DRILLING OF BOREHOLE**

We wish to apply for provision of a borehole in our community at Ndiagu Odo Village Umuogudu Akpu Ngbo.

The aim is to alleviate problems on the scarcity of water in our village, which includes:

1. Trekking of 15 kilometers to the stream in the nearby village.
2. Lateness to work and tiredness after trekking.
3. Water-borne disease such as:  
Guinea worm, Diarrhea to mention but a few.

#### **Careering for the borehole**

We promise to take care of the borehole by locking the borehole after fetching water.

We will be fetching the water in turns to avoid fighting, lastly we promise to keep the surrounding clean.

Thanks.

Sir,

### **APPLICATION FOR WATER BOREHOLE**

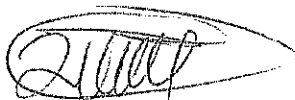

I, Ozibo Jonas .N., a native of Isohumini Agbaja in Izzi L.G.A of Ebonyi State Nigeria, on behalf of the above village humbly write to apply for water borehole through your prestigious foundation.

Father, I write as a concerned native of Isohumini Agbaja village to request for a borehole water, as the only existing source of water supply in our village currently is pond water. It is usually a big hurdle in our village during dry season as we travel more than 5 kilometers searching for water which is stagnant.

Sir, it will be a great salvation to my village having a functional borehole through your foundation.

Thanks in anticipation for your consideration.

*Yours faithfully,*

**Ozibo Jonas N.**

Sir,

### APPLICATION FOR BOREHOLE DRILLING

We wish to apply for borehole drilling in our village, we are a community in Okposhi Eheku Ngbo but deprived of any social amenities such as water borehole is in our community but it is fear for us. Our children cannot go to school early because of lack of water, they have to trek up to ten (10) km every morning before going to school.

More so, the only source of water is pond and streams and many of our mother and they children's <sup>do</sup> suffer, may of water born disease e.g typhoid, cholera, and guinea worm e.t.c.

Therefore, we are begging you to come to our assistant for you are the only hope we have.

Thanks for your co-operation

Samuel Omogo foundation  
Rev. Father Dr. Omogo

Sir,

### REQUEST FOR DRILLING OF BOREHOLE

We the above named village wish to apply for a borehole in our community.

The need for this borehole is because of scarcity of water in my village entirely of which that our people has been suffering for a long time and we have no way for assistance.

The provision of this borehole will enable us cook food, drink good water, <sup>take</sup> take our bath and even wash our clothes.

Our prayer is that Almighty God will bless you as you assist us with a borehole in Jesus Name Amen.

The Director,  
Fr. Samuel Omogo Foundation.

Sir,

### **A SPECIAL APPEAL FOR BOREHOLE INSTALLATION**

We the aforementioned village members humbly and passionately appeal to you to kindly approve your foundation to install a borehole in our village.

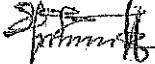

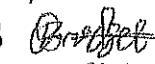

Sir, this is as a result of scarcity of water in our area as you can see from the pictures placed with this letter.

The stream that our people get their water is located at a very far distant, to the extent that most women are raped on the way, some are kidnapped by unknown criminals, and some children mostly inflicted some injuries to themselves as a result of the distance they trek on foot while trying to reach to the stream.

We will be very glad if our request will be granted and we pray that the good Lord whom you are serving will continue to give you strength to do his work now and forever.

Bellow are the names and signatories of the propose borehole manager .

#### **Signed:**

Sir,

### APPLICATION FOR INSTALLATION OF WATER BOREHOLE

We the entire village of Ndiagu Oduma Village Okposhi Eshi Ngbo humbly wish to apply for a water well (Borehole) from the Samuel Omogo's Foundation to enable our village have a good drinking water.

This request for borehole is made on strength of the following reasons:

1. Our people suffer different dangerous diseases as a result of water borne diseases.
  2. Our people trick between 5 to 10km daily in search of water
  3. Our children normally go to school late owing to lack of good water to cook baths.
  4. A lot of villages were involved in fight or struggle for good water, which had caused several injuries and harm
  5. Many members of our villages have been seriously attacked by unknown peoples in search of good drinking water
  6. Our people fetch water from dirty ponds and streams, which are not good for human health
  7. Above all, so many people dies every month and yearly as a result of infectious diseases contacted through drinking of bad water, while some suffer dangerous sickness like Guinea worm, Ring worm and Typhoid Fever and others etc.
- Please sir, we wish to appeal to your foundation to give us good drinking water to help our suffering people and stop the future occurrence of some diseases being contacted from drinking bad and contaminated water.

Rev.Dr. Peter Okworeze Omogo

Sir,

**APPLICATION FOR BOREHOLE DRILLING IN OUR VILLAGE  
PLAYGROUND**

We the entire people of Ndieshi Agbaba village Amaeku Okposhi Ngbo, wish to apply for borehole drilling in our village playground to question the problem of the scarcity and consumption of unclean water from the origin of Ndieshi village.

**HISTORY BACKGROUND OF NDIESHI VILLAGE**

Ndieshi village is one of the oldest and first Village mapped out from the old Okposhi Eheku community with estimated population of about three thousand (3000) people. Practice of Agriculture is their only source of income for living. Ndieshi village is bounded with Ndiagu Nwede, promise land, Ndiogodo and upsetting their growth is the scarcity of water and also the use of unclean local water pond in the village called Ogwema unclean pond for both drinking and domestic use. However, the most containing part of situation is the common and general consumption of the pond by both human beings, birds and animals and this has led to the untimely death of young person's yearly as the result of the outbreak of the different kinds of water borne disease cum bacteria, infections such as tuberculosis, laser fever, cholera, guinea worm and fungi and of recent the increase in the death rate became uncontrollable as both the youths, children and adult fetch water from the same unclean pond.

Sir, use your Godsent charitable foundation to run to our aid to rescue us from this long lasted problem that has mostly contributed to undeserved suffering of the youths, school children, aged, special persons and pregnant women as the even available Ogwema unclean pond is situated at about 35km away from the Ndieshi village and always overcrowded and has equally led to the dispute of different kinds as the result of struggling to fetch the water per turn.

We promise to provide all the needed hygiene and sanitation in our village and to protect and guide the proposed borehole in order to arrest and combat the situation permanently.

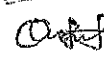

May God Almighty bless the Samuel Omogo's foundation and the entire family and also every other hand that contributed to this development strive in Jesus Name; Amen. Thanks for your kind consideration.

### APPLICATION FOR PIPE BORNE WATER

Before I start I would like to start the letter by expressing my sincere appreciation to you for producing the people of Ebonyi State with regular supply of pipe borne water. The people have waited for years to enjoy this amenity and no previous administration has succeeded in doing this, until your dynamic administration come to power. And the people of the state recognize your ability to provide the people with efficient and adequate amenity that is also responsive to problem of the citizen of the state. However sir, I wish to inform you about serious problem facing us at ( Obegu Ochafu) because of lack of basic amenity such as pipe borne water, and we plead that you attend to these problem.

We the entire village of Obuegu Ochafu in Izzi Local Government Area, humbly apply for Borehole, because of the scarcity of water in our area. Many of our women spend almost the whole day in search of water, mostly in dry season. When the stream dry up and water become more difficult fund. Sir, we the people of Obegu Ochafu fond life more difficult since water is one of important need in life. We surfer a lot before we get water to drink and other domestic work. Even the only one we have still, it service is not qualified in supplying to all the people

of the village. And our women go round the neighbouring village in search of water, which makes some people to drink unclean water such as ponds.

Secondly water is said to be good when it has the following properties such as colourless, odorless, and testless. But because we are lacking basic amenity, people drink untidy water which is not medically advisable. Because drinking unclean water cause a lot of disease to the human body. But people ignore it, because they do not have any other place to get water except from pond, and some may say in spite, all is water they are saying this just because they don't have an option.

Furthermore, lack of basic amenity have made our village to be poor in development especially pipe borne water people from our village will be going round our neighbouring village looking for water. So we therefore cry to S.O.F to help us at least with borehole, to enable us enjoy life as it should and stop stress of water in our village. And we also promised to take good care of the borehole for the long lasting borehole.

Finally sir, we have written this letter to you because we are confident of your leadership abilities. We therefore hope you will use your good office and highly respect position to help solve the problem. Sir we remain grateful and loyal.

### APPEAL FOR BOREHOLE

We the above mentioned village in Ebonyi Local Government Area is hereby appealing for borehole drilling from your off ice to the village of ours. We the entire members of the village are suffering of water scarcity especially in the dry season due to lack of good drink water except pond water which is very dirty for even someone to take his or her bath, not to talk about drinking. Look at the picture of the pound we are talking about it is even good in this picture, but when you come there by yourself to see it; you will have pity on us. We are suffering of these amenities be cause we don't have any representative from our Local Government that can listen to our problems, and we have nobody to help us too, that is the reason why we have decided to come to you for help.

Father, that pond we are talking about normally gets dried up on or before January every year.

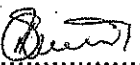

So, father we hope our request will be granted.

The entire members of the village are jubilating when they heard that we are coming to you for help.

Thanks

Your Faithfully,

Father,

### REQUEST FOR DRILLING BOREHOLE

The people of the above address are humbly requesting that you help to alleviate us from the problem of scarcity and total lack of water for drinking and other uses.

As from the month of Nov., to first week of Dec., our sources of water being stream and pond do dry up to an extent that we find it difficult to get drinking water. In order to get drinking water we do trek a distance of twenty (20) km to Ebeanyi River, which is usually contaminated with water borne disease like "guinea worm" for us to drink it we do boil and filter it.

Father, may you help us and grant our request.

Rev. Father Dr. Peter  
Okwoeze Omogo.

Dear father,

### **APPLICATION FOR BOREHOLE DRILLING**

We with one voice and mind the entire villagers of the above mentioned address, wish to apply for a borehole drilling in our village playground due to the unbearable scarcity of water in our locality:

Latora village in Ntezi community is one of the major villages with estimated population of over 300 people who earns their living through making of basket. One of the greatest challenges faced by our dwellers is lack of major basic amenities, just because we are very far from the heart of Ntezi and no one cares for us including government.

Need of drinkable clean water has been our most pressing need because we don't have even one borehole within the entire village.

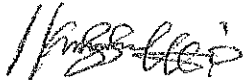

This problem of lack of water has caused many havoc among our people for years, a situation where some of our people still suffer for guinea worm in this modern world and high rate of other water born and other related diseases are at alarming rate, and kills villagers on yearly bases.

During dry season adult, youth and children pass through hell before they could get access to the only dirty Ugberi water pond which is equally about 21 kilometers away from the village setting.

Therefore, we shall be so happy and highly excited if you can use your humanitarian and charitable Samuel Omogo's foundation to address this terrible situation and we are ever ready to abide to all the required hygienic rules and maintenance to ensure that the expected borehole last very long if given to us.

We pray that God Almighty will keep and help you and your foundation to attain more height in Jesus name amen.

Sir,

### **APPLICATION FOR BOREHOLE DRILLING IN OUR VILLAGE**

We the entire good people of Ndiagu-Akpa Village of Amaeffia Amaeku Ngbo, sincerely wish to apply for your kind and Godly assistant in borehole drilling within our village square.

Ndiagu- Akpa village is a small settlement under Amaeku Community in Ngbo with an estimated population of about 350 people who are mostly farmers.

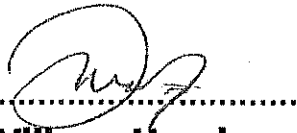

In the history of Ndiagu-Akpa Village scarcity and consumption of unclean water has been one of the major problems among the villagers. Both for domestic use and other needs. The only available water is the unclean Iyi-ugadu borrowed pit which has caused very serious and steady increase in the spread of air born diseases and bacterial infections among the villagers.

**Example:** The recent outbreak of cholera in November, 2022 intervened by the Federal and State Ministry of health (Amurt) at Amaeku health Center which later took some lives. However, we have experienced underserved suffering such as the long distance of about 15-20kms away from the village to the borrowed Iyi-ugadu pit coupled with the over-population always in the pit which deprived many persons access to the water cum the injury sustained often by the villagers on the process of struggling on who to first fetch at about 25minutes per-turn in the pit.

Finally, we solicit if you can run to our aid and rescue us from this long lasted problem, through the God gifted Samuel Omogo's Foundation. We therefore, promise to maintain and protect the proposed borehole.

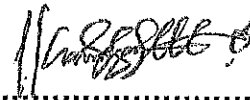

May God Almighty bless and keep you and the entire Samuel Omogo's Foundation in Jesus name. Amen.

Sir,

## APPLICATION FOR DRILL OF A BOREHOLE.

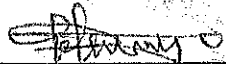

The named church humbly apply for drill of a borehole in their congregation. This is to alleviate them from the problem of using (bad) unacceptable water, long way of getting water, and also the problem of contagious diseases such as Guineas worm and Diarrhea. Again the problem of quarreling and fighting will be stopped.

As we have stated in our form, travelling a far distance in search of water will be minimized.

Sir, we the church promise that we will take care of the borehole if our application is favourable considered.

Thanks for your humanitarian service.

Sir,

**APPLICATION FOR WATER BOREHOLE**

I, Dr. Odo Kingsley Ebenyi of the above address humbly apply for a water bore-hole from you to the above establishment. I finished my University Course (Medicine & Surgery) in ESBU in the year 2014 and I have not gotten any government work till now. I resorted to borrow money from some friends and established a clinic at Ndiagu Ode – Okposhi Eshi Ngbo attendants very badly especially in the dry season.

People (even the sick) trek kilometers from the hospital in search of water before they could fetch stagnant water (pond) for their drinking which is unhealthy and other domestic uses while some patients resort to buying of sachet water.

I therefore request for your help to alleviate the problem of the suffering masses from this untold hardship caused by water. I should be very grateful if my plea is given a favourable consideration.

Yours faithfully

Dr. Odo Kingsley Ebenyi

Dear Sir,

### REQUEST FOR BOREHOLE WATER

It is a great and nice opportunity for us the Ndiagu Oganiru Village demanding for what we have been looking up to for a long run.

With all due gratitude we care with a pledge to ask for an important thing which our village is lacking form for a long time, which is the borehole water supply.

We the Ndiagu Oganiru Village are really lacking from water supply, no source of water, and it's really hard for us to be living a life all this years without good water and any form of water supply.

Sir, we are looking up to you, please look down at us, we will be happy and grateful to you if you help our community concerning the borehole water, thanks for we know you will do more than we are expecting of you.

Yours faithfully,

Dear Sir,

### APPLICATION FOR A BOREHOLE

Greeting to you in Jesus Christ name, Amen.

We the entire people of Agbaba Village Amaefia Ameku community Ngbo Ohaukwu local Government area Ebonyi state wish to apply for a borehole. We have been having the good news about your kind gestures especially the provisions of boreholes for people suffering from challenges of water scarcity like as we are. So we decided to apply for one.

How to get good water for drinking and other uses in the homes has been a heavy challenge for us till today. We trek a long distance daily to the stream where we also spend hours in order to fetch water of which after all is not good though for drinking. This water scarcity has exposed us to so many dangers which shall be taken away if you can give us this borehole.

We know that borne is a very valuable asset and promise to handle it as solute care and protection if you give it to us. We will also be endlessly praying for you and the foundation if this application gets approval and request granted

Thanks and God bless .

Sir,

### APPLICATION FOR DRILLING OF BOREHOLE

We the entire member of solution ground ministers humbly wishes to request for a borehole to be given to us by Samuel Omogo foundation (SOF) through Rev. Dr. Peter Omogo.

This is because the sources of water in our area is very far from the ministry and if found is always bad for drinking.

Some of the sources were showed on the picture whereas the population of people living around the ministry and other people attending the programmer is over one thousand peoples.

The important of water to human race cannot be over emphasized for it is for both drinking, cooking, washing our clothes and domestic uses so we are looking for help from your good office.

We shall be extremely happy if our request is given a fatherly consideration  
Thanks for your usually co-operation.

Sir,

**APPLICATION FOR DRILLING OF BOREHOLE**

We the people of the above mentioned address are humbly requesting for help to alleviate us from the problem of scarcity and total lack of water, like drinking and other uses of water.

From the month of November to first week of December, our source of water being stream and ponds do dry up to an extent that we find it very difficult to get drinking water and other uses of water.

We do trek for a very long distance of forty five (45) minutes to one hour before reach where to fetch water, which is usually contaminated with water borne diseases like "guinea" worm, hook worm, cholera, for us to drink it, we do filter it.

Please father, may you help us and grant our request.

Thanks for your services to humanity.

**Yours faithfully**

Rev. Father,

### APPLICATION FOR REQUESTING OF BOREHOLE

We, the entire good people of Akpegu Amoffia Village Autonomous community Ngbo, humbly wish to apply for the installation of borehole in our village. Reason, we have been suffering scarcity of water for a reasonable number of years in our community. Only sources of water supply are;  
(1) Stream (2) Pond respectively.

These two sources of water supply have generated a lot of diseases to us such as Cholera, Cough, Guinea worm respectively.

These two sources of water supply available in a year from December to February (3 month).

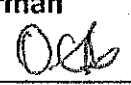

All our efforts to have borehole from past and present government proved abortive.

Therefore, we humbly appeal that you use your good office to rescue us from the ugly situation. We strongly hope that this our application shall duly considered.

Thanks for your anticipated cooperation.

Father,

### **REQUEST FOR DRILLING OF BOREHOLE**

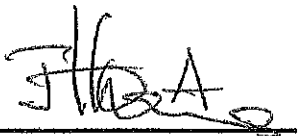

We the people of the above address are humbly requesting you to help alleviate us from the problems of using (bad) unacceptable water and scarcity of water in our village, the problem of this water is causing more than harm in our village, such as diseases, quarreling, fighting each other every day because of water.

From the month of November to second week of December, our sources of water is from stream and pond do dry up to an extent that we find it difficult to get water both drinking and other uses of water in our village.

We do trek distance of two hours before we can get to Ebonyi river which is usually contaminated with water borne diseases like ring worm, guinea worm, diarrhea

We promise that we shall take care of the borehole properly with security, washing and cleaning round the borehole if our request is being approved.

Thanks for your service to all humanity.

Sir,

### APPLICATION FOR BOREHOLE

Please angels of our time Okworeze Omogo Omah. We are written this application for you to help us as you normally do to others please, in Ndiagu Ituma Umuogudu Akpu Ngbo.

1. Reason is that we have no water in our community expect stream dirty water.
2. The water causes our community long guinea worm.
3. The animals and stream leaves destroy the water, also the euglena.
4. Our children used to fight all the time because the water is not enough.
5. Snake bite our children in the stream always because they go both day and night. Lack of scarcity of the water in our community.

Thanks and God bless you

REV. FR. DR. PETER OMOGO

**APPLICATION FOR DRILL OF BOREHOLE**

Ndiagu Ato Ukwagba village is situated between Ndegu Iyigwe and Ndegu Alioma. It has a population of about one thousand people mostly farmers, children and women who take a long distance in search of water. In the course of looking water, our women are being raped, others get robbed of their possession.

The source of water only depends on ponds and streams which are contaminated and do not last for seasons.

To these effects, we write this application to your office requesting for drill of borehole.

We are grateful for your kind gesture for providing water wells to other villages and communities hoping so that our application will be granted.

Thanks for your help and be blessed.

**APPLICATION FOR PROVISION OF A PORTABLE SOURCE OF BOREHOLE WATER**

**RE: OHAKPU ONUAFOR ZONE**

**AMECHI AUTONOMOUS COMMUNITY**

**OHauKWU LOCAL GOVERNMENT AREA**

**EBONYI, NIGERIA.**

We the entire inhabitants of the aforementioned zone, hereby wish to request that you may extend your fatherly helping hands to us, when next you can, as usual.

To be precise, we need a borehole drilled in our vicinity, to reduce water scarcity which has been our tooting problem for ages.

For now, we depend on: ponds, streams, and dug-wells that dry out during the dry seasons. There are so many water born diseases to which we are prone. You have been fighting them and to God be the glory.

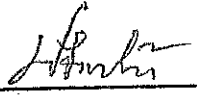

Since it is your wish to render selfless services to creation, we are prayerfully hopeful that God will provide other opportunities for you to serve mankind and all others in God's creative activities, then, it will be your full opportunity to actualize yourself in the actuality.

Now, like Christ Jesus, you are our EMMANUEL!

Your reward awaits for you.  
Thanks for your anticipated co-operation.

Sir,

### **REQUEST FOR GOOD DRINKING WATER (BOREHOLE)**

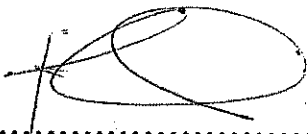

We the entire members of the above mentioned church hereby solicit for the drilling of borehole in our church to enable us have access to a good drinking water.

Before now, our source of water for both domestic and drinking have being stream which dries up between October and November each year. The drinking of this stream, especially during dry seasons had exposed the villagers to chronic diseases such as Cholera, guinea worm, diarrhea etc. and have damaged many lives. Also the search for drinking water leads to waiting much time by women and youths and difficulties like snake and mosquitoes bites are encountered.

Sir, we will be so much grateful if our request is granted, and promised to take adequate care of the Borehole if drilled.

Thanks for your anticipated consideration.

Sir,

### **APPLICATION FOR BOREHOLE WATER WELL**

We the above addressed village is requesting for borehole water well, the reason that we are suffering as a result of scarcity of water in our village, worst still the only source we have is not good for cooking, talk more of drinking because both man and animal taking from that one more also the water is not last long, in searching for water our women and children were passing many dangers like rape, sleepless night, snake bite, trekking far places and carrying heavy load on the head etc.

Sir, we are pleading because we have no alternative than to plead, though we have come for many years now but we are not tired to come again because we believe that one day will be our turn, and we promise that if it is given to us we will take good care of it.

Sir, we will be glad if our request is given due consideration.

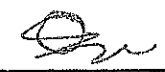

Thanks.

### **LETTER OF REQUEST FOR BORE-HOLE**

This issue of water scarcity has cause a lot of worries and sleepless night to the people of Ekoche village in Umuezaka Ngbo.

We have been seeking for help from many people in order to solve this problem of water in our community but up till now our problem remains, we are therefore asking and begging if you we come to our rescue because we don't know what to do again, and if we continue in this situation without water we may not survive it, because every living souls need water to retain their lives.

Consequently the entire people of Ekoche Village have come together in the purpose of bringing water into their village through the help of this Charity foundation if it can be possibly granted to us, because we have being seeing the good works of this Charity Foundation around many communities in Ngbo, and many other relatives villages, and that have been putting smiles on the faces of many communities.

Therefore we have come to ask if the same smile can be put on our faces, truly the entire people of Ekoche Village will rejoice over it.

We must be very greateful if this request of water will be granted favourably.

Dear Sir,

**REQUEST FOR DRILLING OF WATER BOREHOLE IN MY VILLAGE**

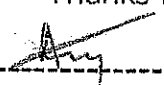

I most humbly apply for borehole in my village this is necessitated by the hardship my village is currently facing in search of water. The village is about three hundred hamlet of about five million peoples.

Some children in my village don't go to school again because of search for water. Many have divided the school days in order to choosing the days to go to school because of scarcity of water.

The stream around our village does not last in the dry season, thereby making it very difficult for the village to strive economically. We have two numbers of ponds but do not last within the last quarter of the year. The village which is dominantly farmers finds it very difficult to cultivate vegetable because of lack water. The seedlings and plants planted during raining season always get dead during dry season. We supposed to water the vegetable and plants but no water.

Thanks for your usual kind consecration, Sir

## **REQUEST FOR BOREHOLE**

We have heard and seen your assisted borehole projects across different Communities, churches, schools and individuals which helps to reduce dangers imposed on water scarcity and endemic diseases caused by rivers and ponds.

In line with the above, we the aforementioned church, wish to apply for a borehole in the church premises. Water scarcity has affected the Christian success of our member tremendously.

1. This is because most members absent themselves from church as a result of lack of water to bath and otherwise prepare their breakfast.
2. Some suffer epidemic disease after drinking from ponds and rivers that sometimes contaminates with microbes and germs.
3. During traditional festivals, masquerade usually scare people who intends to fetch water across the rivers and ponds.
4. Most sickness contracted by members of the above church are usually diagnosed to be water borne and we believe if one borehole is provided for us, it will bring lasting solution to the above problems.

The entire church council and members of the above church shall be grateful if this request is considered.

The undersigned are the nine committee members of the church that will serve as the borehole managers.

Beloved Rev. Priest,

## **REMINDER: APPLICATION FOR YOUR ASSISTANCE IN SINKING BOREHOLE**

We the members of the above committee refer to our earlier application on the above subject matter, and also wish to remind you that we are in a very much need for the above facility.

Last year, we had spent number of days in your residence in the course of this search but to no avail. This time again, we have resumed our search, hoping fully well that this year's allocation will get to us.

Grateful, if you will do this for us.  
 Remain blessed.

## **AN APPLICATION FOR THE PROVISION OF BOREHOLE IN OUR VILLAGE.**

I wish to start by congratulating you for your ability to provided bore-holes in different villages, communities and states. More power to your elbow.

The above addressed village wishes to appeal to you for the provision of bore-hole in our village. Time may not permit me to narrate all the problems/challenges facing the village as a result of lack of water.

Some of the problems include Fighting among women, as a result of one came first, diseases like cholera, guinea worm, diarrhea etc. are rampart in our village as a result of drinking and cooking with impure water.

All the above problems and more motivated the village to cry for help.

We shall be grateful, if this application is considered and favourably granted.

Yours faithfully

.....

Rev. Fr. Dr. Peter Okwoeze Omogo  
Director/ CEO Samuel Omogo  
Foundation (SOF)

Dear Sir,

**REQUEST FOR A BOREHOLE IN OUR COMMUNITY**

With deep sense of honour respect and glory of God, we the entire people of Ndiagu Ose village Isovu Okposhi Eheku Ngbo humbly wish to express our profound gratitude to you for your inestimable magnanimity towards mankind, particularly to our good people of Ngbo, Ezzangbo and Ebonyi State in general.

Sir, the course you have chosen to provide portable water for our people, is a mobile one because water is life and whoever makes a safe drinking water available to the people without taking any charge from them, deserves a lot commendation.

So we are highly grateful to you and urge you to keep it up as the Almighty God with his infinite mercy will surely reward you in Jesus name. We the people of the above named village are facing a serious problem of water scarcity particularly in the dry season when it becomes a herculean task for our people to get water for Ordinary domestic use let alone for drinking.

In rainy season, the suffering is less because when it rained we usually get water through the house roof. But whenever it did not rain, we usually walk a long distance of about 2 two to 4 kilometers to a very shallow stream before we can fetch water for our domestic uses.

The problem we have with this stream is that it dries up in this dry season and it is the only source of drinking water for humans and animals both for our own village and nearby ones. As a result, it is usually dirty as many people and sometimes

animals struggle to fetch water from the said stream. Sometime, it leads to fighting between the children and women in the scramble for water at the stream.

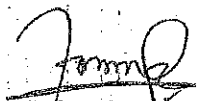

Also there were cases of snake bites for some people who went to stream too early in the dawn in order to get clean water before the rush.

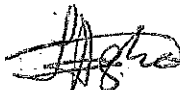

Worse still is that many of our people still practice open defecation which helps to contaminate the stream consequently our people suffer a lot of water borne disease such as diarrhea, cholera, typhoid fever etc. this is in addition to frequent harassments of our women by militant herdsmen.

In view of the above stated problems of water facing us, we plead for your help to come to rescue and a borehole for us to alleviate our suffering. we promise to guard the borehole jealously and maintain it constantly to ensure that it will serve us for a long time.

Thank you for granting this request.

Yours Sincerely

THE MANAGER,  
SAMUEL OMOGO FOUNDATION,  
C/O REV. DR. PETER OMOGO.  
Sir,  
ULTRAMODERN CHURCH BUILDING PROJECT.  
THE BELOVE MAN OF GOD  
APPEAL FOR FINANCIAL ASSISTANCE TO BUILD A "HOUSE" UNTO  
THE LORD.

Calvary greeting to you hoping that this letter comes to you in good health and God's work to which you have committed your faith.

We are writing to solicit for your financial support to enable us build a church hall (place of worship). Indeed, we have been seeing your good work of helping people both collectively and individual. Keep it up. The Lord will definitely reward you.

We the above named congregations are presently meeting in a primary school named Holy Ghost primary school Umuogudu Oshia Ngbo and by Government policies, we may be driven out any time, hence the plan to embark on a church hall building project before we are sent out.

We have secured a plot of land after the church was disappointed over a parcel of land marked out for lease by some people.

## ACHIEVEMENT

- i. By the effort of the church, they have procured 35 bags of cement of which blocks have been molded for the church building.
- ii. We have bought one trip of chippings or  $\frac{3}{4}$  stone.

## NEEDS (CHALLENGES)

1. The finance to actually start the building and bring it to completion. This is because our members here are all peasant farmers who invariably "feed from hand to month" every year.
  2. We need building materials like rods, sands, chippings, stones wood, nails, roofing sheets e.t.c.
- Conclusively no-amount given to us as a support too small for the project.

Sir,

## REQUEST FOR A BOREHOLE

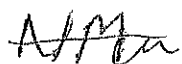

We, the Committee Members of our Saviours Anglican Church, Aguachara humbly request for a borehole water in the church compound. This will serve both the church and the community at large.

The reasons for the borehole are as follows:

- i. The only source of drinking water is Ebonyi River which is over two kilometres from our community.
- ii. People in this area use locally-made ponds as their source of drinking water.
- iii. Some of those ponds were not hygienic and contains harmful germs.

The entire church and people in this area will be very grateful if our request is granted. Our God will surely bless Samuel Omogo Foundation for their humanitarian work.

Dear Fr,

## APPLICATION FOR WATER PROJECT

May the grace and peace of Christ be  
with you.

We write to apply to your establishment  
for the provision of a water project.

Ezillo community is one of the  
communities with a feeling water  
crisis that has a lot of untold  
consequences.

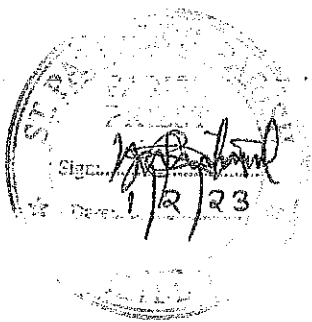

In November 2022, an out-break of  
water beseeched the entire community  
of over 2000 households. The renowned  
Niger Corporation from the government  
is non-functioning. This has made  
the provision of potable water a  
challenge.

have been claimed by cholera including  
our parish catechist, late Mr. Coemga  
Sike, who died on 31st December  
of cholera.

We pray God to use you to come  
to our aid in this water crisis. The  
impact of potable water in the  
rectory that is right at the centre  
of the community cannot be  
over emphasised.

Thank you as we anticipate  
your kind gestures.

Sir,

### REQUEST FOR DRILLING OF BOREHOLE

We the entire parishioners, write to solicit for the drill of water well in our parish's permanent site. As a newly created parish in the Diocese we don't have any source of water close to the parish sites which have being a big challenge to work in the parish site both in the rainy & dry season. The little money realized for building project will only be spent in buying water and for that no father's house have being erected not to talk of church building and without such there will be no residence priest in the parish

Please may you use your office to off<sup>set</sup> us from this problem. And we promised to take adequate care of the borehole if drilled.

Thanks for your anticipated consideration

Yours faithfully

Samuel Omogo Foundation,  
Umuogudu Oshia,  
Ngbo.

Dear Rev. Fr. Dr. Peter Samuel Omogo.

### LETTER OF APPLICATION

It is with deep sense of commitment and humbleness that I write this letter. First to alleviating the difficulties facing water supply in different localities both home and abroad. Secondly to register the scarcity of water in the above school.

The school have been experiencing water scarcity over the years. The pupils have in aviating of ways letter to lamented the poor state of water supply all this while which made them to leave the school premises in search for water especially in hot seasons. Promises have been made to the situation but nothing happened positively.

Furthermore, we highly implore you to help us in pounding or renovating our school building where pupils can learn comfortable. The school have embarked on raising structure. But unfortunately it was shattered by destructive winds and storm, leaving the plan abortive.

I sincerely pray that you will use your good offices to look into and systematically institute a long lasting solution to the problems afore-listed may God bless you in no small measure as you relief and quench the thirst of the pupils.

Yours faithfully,

**Umah Chinyere**  
(Proprietress)
